

Make Informed Decisions

EBSCOhost® Databases for Corporations equip corporate users with business information from leading publishers as well as timely industry intelligence and department-specific information. Alerting capabilities give users immediate access to industry reports, company profiles, competitive information and other critical data from reliable sources not found elsewhere on the Web.

- ✓ Do you have a department that needs easily accessible research materials on a wide range of topics?
- ✓ Do your executives want daily access to the latest industry developments through the most current means possible?
- ✓ Do you have a human resources staff? Would they be interested in managing employees' health questions, increasing company benevolence and helping reduce employee absenteeism?
- ✓ Do you have a staff that's responsible for risk management? Would they like to know all the newest data in the field of risk management and security developments?

Our business-focused research databases address these and many other critical issues facing corporations. The EBSCOhost platform is known for its unmatched content, usability and service, and is one of the most-used for-fee online information resources worldwide.

Highlights:

- PDF coverage allows access to searchable text and rich graphics combined with smaller file sizes for faster downloading and easier emailing
- deliver timely information right when your staff needs it
- alerting capabilities via email or RSS
- share articles on intranets or via Microsoft SharePoint®
- search multiple databases with one set of results
- search by type of publication
- simplify budgeting with flat fee pricing.

Benefits:

- reduce amount of time employees spend searching for information
- find relevant results fast – from reliable sources not found elsewhere on the Web
- gain a competitive edge with immediate access to industry reports, company profiles, competitive information and other critical data
- offer top trade journals relevant to the entire organization as well as the niche publications needed by individual departments
- enable resource sharing, which can help break down the barriers between departments.

Information your organization can no longer afford to be without is covered in one or more of these powerful databases for businesses:

Business Source® Corporate, designed specifically for corporations, draws upon the success of the *Business Source* research databases used by the top US and international business schools. *Business Source Corporate* contains nearly 3,000 quality magazines and journals. Sources range from general business periodicals, such as *Fortune* and *Fast Company*, to trade publications like *Chemical Week* and *Electronic Business*. *Business Source Corporate* also includes top management journals such as *Harvard Business Review*, *California Management Review* and *Academy of Management Executives*. Additional sources include more than 1,100 country economic reports, 10,000 substantial company profiles and more than 5,000 industry reports. *Business Source Corporate* includes companion databases with hundreds of full-text sources including regional business publications, newspapers and newswires.

EconLit™ with Full Text contains all of the indexing available in *EconLit™*, the world's foremost source of references to economic literature, plus full text for more than 400 journals including *American Economic Review*, *Journal of Economic Literature* and *Journal of Economic Perspectives*. *EconLit with Full Text* provides full-text content in all fields of economics, including capital markets, country studies, econometrics, economic forecasting, environmental economics, government regulations, labor economics, monetary theory and urban economics.

Risk Management Reference Center™ is a comprehensive risk management resource for corporate risk management professionals and strategic planners. The database is designed to inform the risk analysis process, and provide information on all aspects of risk management. Content includes hundreds of full-text journals and periodicals, hundreds of thousands of selected articles, reports, summaries,

books, blogs, FAQs and news wires that pertain to all types of risk including credit, liquidity, operational, event and market risk. The database offers information on virtually every dimension of risk management, and combines deep background from scholarly writings with expert commentary from a variety of organizations, agencies and publishers and timely reviews of recent developments across the international political, economic, social and technical spectrum.

Science & Technology Collection™ contains journals covering relevant aspects of interest to the vast scientific and technical community. Containing more than 800 leading full-text journals, the *Science & Technology Collection* covers topics including: aeronautics, astrophysics, biology, chemistry, computer technology, geology, aviation, physics, archaeology, marine sciences and materials science.

Biomedical Reference Collection™: Corporate Edition provides managers and clinical researchers in industries such as bio-pharmaceutical, medical device manufacturing, biogenetics and public health with access to more than 1,000 full-text journals. Journals include *American Surgeon*, *American Journal of Public Health*, *Annals of Human Biology*, *American Journal of Human Genetics* and others covering disciplines from biomedicine and health sciences to the health care system and pre-clinical sciences.

Health Library™ is a tremendous resource for corporations seeking to promote employee health and wellness. This resource provides comprehensive coverage of health, wellness, and other medically related topics presented in an easy-to-understand manner.
