EBSCO A-to-Z® is the industry's most complete web-based tool for organizing and providing links to all of your library's e-resources, including e-journals, titles in full-text databases and e-journal packages, and e-books. A-to-Z offers users a "one-stop" search of your library's e-collection, with easy navigation to full-text content.

Highlights

- Online service that provides a single, comprehensive list of your library's e-resources
- Powered by the EBSCO Integrated Knowledge Base, with information on more than 415,000 unique titles and over 3,400 databases and packages
- Automatic population of e-journals and e-packages acquired through EBSCO
- Customization options to tailor EBSCO A-to-Z to match your institution's Web pages
- Sophisticated Overlap Analysis tool to reveal unique titles, coverage, and overlaps in your collection, with multiple options for defining analysis
- Multi-option proxy support to enable seamless access
- Choice of LCC, General or Medical subject headings
- Ability to add custom titles in native languages

Benefits

- Maximize the access and exposure of e-resources, making the most of your library's substantial investment
- Communicate resource-specific information to users through notes and icons
- Enable open browsing of your library's list yet allow only authorized users to access restricted resources
- Integrated e-journal table of contents (TOC) browsing makes EBSCO A-to-Z your one-stop location for accessing subscribed e-journals
- Expand your library's collection with EBSCO's subject-specific Open Access packages, representing more than 8,500 unique titles
- Evaluate your collection and its usage through advanced reporting options
- Save valuable staff time – EBSCO manages the knowledge base, including coverage calculation, URLs, movement of titles within databases and packages, and publisher information
